

Post Advanced Training on Family Constellation and Trauma Healing

From **november 14th** (arrival day for settling) to **19th** 2020 after lunch.

****This 5 day training is open for those, who have participated in the level 3 training before.

We will explore further **trauma related issues with a focus on attachment trauma.**

We will study various attachment styles that originate in early life experiences with our primary care taker, what is the difficulty for each type and what serves healing.

Healing bonding trauma makes us capable of being related to others in a deep way, it strengthens our ability to repair conflicts in relationship and it gives us the ability to be on our own without feeling cut off. Ultimately it connects us to the love that surrounds us and is within us. It leads us to the experience of oneness.

Investment in training: 650€

Hotel in individual rooms 65€ x day x 5 days= 325€

Welcome with love
